

*My project will focus on the relationship between (speaker's) hand gesture/face and sentiment in communication. 05 Oct 2021*

1. Summary of actions agreed during last meeting

1-1. I have improved model for predicting emotions using a 3-layer NN model (Pytorch)

1-2. Dissertation: I have written a draft version of Chapter 4 (Evaluation part)

1-3. Observed and visualised the data for the report

2. Summary of work done & results this week

2-1. I have created models for predicting emotions using a 3-layer NN model. (Ekman, Grouping)

2-2. Observed and visualised the data for the report

2-3. Dissertation: I have written a draft version of Chapter 4 (Testing/ Evaluation part)

3. Questions to be discussed during the meeting

3-1. Can you advise me on the visualisation and observation of the following graph?

4. Proposed objectives for next week

4-1. Observed and visualised the data for the report

4-2. Dissertation: Write a draft version of Chapter 5 (Conclusion) & I will complete my dissertation.

5. Articles read this week

5-1. Do Bodily Expressions Compete with Facial Expressions? Time Course of Integration of Emotional Signals from the Face and the Body

5-2. Body Movement: Coping with the Environment

5-3. Attributing Emotion to Static Body Postures: Recognition Accuracy, Confusions, and Viewpoint Dependence
